Total CRAR	10.22%	10.22%

Table DF-2: Capital Adequacy

2.1. Qualitative Disclosures

- 2.1.1. Bank maintains capital as a cushion towards the risk of loss in value of exposure, businesses, etc., to protect the interest of stake holders, more particularly, depositors.
- 2.1.2. Bank has a comprehensive system in place for assessing bank-wide capital requirements based on current and future business activities and monitoring the same on an ongoing basis. The bank considers that capital availability is the central theme in the whole process and its computation is relatable to policy, strategy, business level/composition, and Supervisory concern and Disclosure issues. Towards this, bank has evolved a well laid down Internal Capital Adequacy Assessment Process (I-CAAP) policy framework and carries out capital calculation under Pillar-II besides Pillar 1 Capital calculation. The bank has formulated Stress Testing policy to measure impact of adverse stress scenarios on the adequacy of capital at periodical intervals.
- 2.1.3. In line with RBI guidelines, the bank has adopted following approaches for implementation of New Capital Adequacy Framework Basel III.
 - Standardised Approach for credit risk
 - Basic Indicator Approach for operational risk
 - Standardised Duration Approach for market risk
- 2.1.4. Bank plans capital requirements and reviews the same on quarterly basis. Bank has done capital assessment up to 2016, as a apart of ICAAP framework.
- 2.1.5. Bank has taken initiatives to migrate to advanced approaches for Risk Weighted Assets Computation. Also Bank has acquired the software capabilities for the same and is in the process of implementation.

2.2. Quantitative Disclosures

2.2.1. A summary of the bank's capital requirement for credit, market and operational risk and the capital adequacy ratio as on 31st March 2015 is given as hereunder:

(Rs. in crs)

	(113. 111 C13)
A. Capital Requirements for Credit Risk:	
- Portfolios subject to Standardized Approach @ 9%	20079.70
- Securitisation Exposures	Nil
B. Capital Requirements for Market Risk	
Standardized Duration Approach	1315.17
- Interest Rate Risk	886.38
- Foreign Exchange Risk (including gold)	12.15
- Equity Position Risk	416.64
C. Capital Requirements for Operational Risk	
Basic Indicator Approach (RWA -Rs.16436.61 crs @ 9%)	1479.29
D. Capital Adequacy Ratio of the Bank (%) Basel-II	10.74%
E. Capital Adequacy Ratio of the Bank (%) Basel-III	10.22%
F. Tier 1 CRAR (%)	7.51%

2.3. General Qualitative disclosures

a. Risk Management: Objectives and Organization Structure

- The bank has a credible and comprehensive risk management structure and has taken various initiatives to strengthen the risk management practices. The Bank has an integrated approach for management of risk. The risk management policies are commensurate with the business requirements and are as per the guidelines of Reserve Bank of India. The risk management system encompasses the different types of risks viz. credit risk, market risk and operational risk.
- The bank has also formulated board approved country specific risk policy for its overseas branches i.e. Hong Kong and Dubai branch and the policies are drawn based on the risk dimensions of Hong Kong and Dubai economy and the bank's risk appetite.
- The Board of Directors of the Bank has an oversight of Risk Management activities of the Bank. The Bank's Supervisory Committee of Directors on Risk Management is the Apex Body/Committee to oversee various Risk Management activities. The Bank also has separate Committees of Top Executives i.e., Credit Risk Management Committee (CRMC), Asset & Liability Committee (ALCO) and Operational Risk Management Committee (ORMC) to deal with Credit, Market and Operational Risk respectively. Further, the bank has Risk Management organizational structure in place not only at corporate office but also at

Regional Offices/Field General Manager's Offices. The broad risk management organizational structure of the bank is furnished as under:

2.4. Credit Risk:

a. Credit Risk Governance

- Credit risk arises from the potential that an obligor is either unwilling to perform on an obligation or its ability to perform such obligation is impaired resulting in economic loss to the bank.
- The Bank is exposed to Credit Risk through Lending and Investment activities.
- Bank has well laid down Loan Policy, Credit Risk Management Policy, Real Estate Policy and Credit Risk Mitigation (CRM) Techniques & Collateral Management Policy which covers guidelines on the entire gamut of Credit Risk Management Process. Loan Policy & Credit Risk Management Policy, spells out the target markets, risk acceptance/avoidance, risk tolerance, preferred levels of diversification and concentration, credit risk measurement, monitoring and controlling mechanisms.
- Bank has an appropriate and independent organizational structure with an oversight mechanism for management of credit risk, which includes Credit Risk Management Committee (CRMC) of Top Executives and a separate Risk Management Department looking after the Credit Risk. Besides, there is a separate Board Level Committee i.e., Supervisory committee of the Board to oversee the functioning of Risk Management and ALM.
- CRMC deals with issues relating to credit policy, procedures and control measures for credit risk on a Bank-wide basis.

b. Credit Approval Process

- Loan Policy of the bank covers in detail guidelines on credit approval process which among other things include
 - Thrust area and non thrust area
 - Due diligence criteria
 - KYC norms
 - Method of assessment of finance

- Minimum credit standards
- Takeover code norms, etc.
- Prudential & Regulatory ceilings

c. Credit Monitoring System

- Credit monitoring is a continuous process. Bank has separate policy on credit monitoring which includes guidelines on:
 - Identification of EAS/SMA accounts and triggers points for initiating timely action.
 - Periodicity of review of the borrowal accounts based on credit quality. Borrowers with lower credit rating are subject to more frequent reviews.
 - Submission of periodical monitoring reports.
 - Different hierarchical levels for monitoring.

d. Credit Rating Framework

- Bank has comprehensive internal credit rating/scoring models being applied in the Credit Administration and Approval process. Credit rating framework is a combination of quantitative and qualitative aspects. Credit Rating depicts credit quality and predicts probability of default.
- Credit Rating models are in place for Credit Rating of Borrowers, Non-SLR Investments, Inter Bank Exposures and Exposure to NBFC.
- Credit scoring models are in place for retail lending schemes.
- Independent assignment of Credit Rating is in place. The Credit Rating is reviewed annually and for high-risk accounts, credit rating is done half-yearly.
- In terms of Bank's credit rating framework, there are 8 risk-rating grades in standard category and 'investment grade' is fixed up to Credit Rating-5.
- The bank carries out analysis on rating wise distribution of borrowers on obligor basis and portfolio basis at periodical intervals and monitors the same.

e. Credit Approval Committees:

 As per the government guidelines and as per the Board approved structure, Bank has introduced Credit Approval Committee (CAC) at Regional Offices, FGMO and Central Office for credit sanction. Risk Management Department is represented in all CACs.

f. Credit Concentration Risk

- Credit concentration is addressed with the following measures :
- The bank has fixed prudential / regulatory ceilings for various categories of advances for diversifying the credit portfolio. The bank has well diversified credit portfolio.
- Bank monitors the adherence to the exposure ceilings on a quarterly basis. Bank also has a well-established system of monitoring large exposure through monthly monitoring report. The credit portfolio of the bank is well diversified so as to reduce concentration in any area. If bank's portfolio falls below the desired degree of diversification, immediate steps are initiated to shift risk away from individual group exposure/industry/sector, etc.

 Credit Risk appetite of the Bank is defined through Internal Capital Adequacy Assessment Process (ICAAP) by fixing ceilings limits for various parameters. They are monitored on quarterly basis by undertaking the assessment of ICAAP.

g. Risk Profiling:

- Bank also compiles a Credit Risk Profile Template (RPT) on a quarterly basis, by which it assesses the level and direction of inherent business risks, internal control risk and resultant net credit risk.
- The bank also has ceiling fixed for single borrower / group borrowers.
- Substantial exposure limits
- Exposure to sensitive sectors i.e., capital market/Real Estate and NBFC.
- Unsecured advances and guarantees
- Exposure to top 20 borrowers
- Exposure to industries/sectors
- Geography-wise exposure
- Off balance sheet credit exposure.

2.5. Market Risk

- Market Risk Management is covered in Treasury Policy, Market Risk Policy and ALM Policy.
- There is a clear-cut separation between front office, back office and mid-office in Treasury operations.
- Mid-office directly reports to the Risk Management Department.
- Various Limits for domestic and foreign exchange operations, e.g. Overnight Position limit, Daylight Open Position limit, VaR limits, Deal size limits, Stop Loss limits, Aggregate Gap Limit (AGL), Individual Gap Limit (IGL), counterparty limits etc. are in place.
- Value at Risk (VaR) is being monitored on AFS & HFT G-sec, equity Portfolio and forex transactions on a daily basis.

2.6. Interest Rate Risk In banking Book:

 Bank carries out Duration Gap Analysis (DGA) to capture impact of changes in interest rates by 200 bps on market value of equity in terms of RBI Guidelines.

2.7. Operational Risk

- A well laid down board approved Operational Risk Management Policy is in place.
- Presently, Operational Risk is managed through Internal Control Systems, Operational risk Management Framework and Internal Audit Process.
- New Product Approval Process is in place.
- Analysis of frauds is done from the angle of operational risk to assess the adequacy and efficacy of internal controls.
- Guidelines for mapping of bank's activities in BASEL Business lines and Gross Income Mapping are in place.

- Bank conducts Risk and Control Self Assessment (RCSA) for all important products/ process.
- Bank is currently adopting Basic Indicator Approach (BIA) for Operational Risk Capital Computation and in preparation for moving to advanced approaches i.e. The Standardized Approach (TSA) and advanced measurement Approach (AMA).
- Bank has taken membership of External Loss Data Consortium (CORDEX) for getting External loss data which will be used in AMA.

Table DF-3: Credit Risk: General Disclosures

Qualitative Disclosures

a. General Qualitative disclosure pertaining to credit risk:

Overdue:

Any amount due to the bank under any credit facility is "overdue" if it is not paid on the due date fixed by the bank.

An impaired Asset:

An impaired asset is a loan or an advance when it ceases to generate income for the bank. A Non Performing Asset (NPA) is a loan or an advance where:

- a) Interest and/or installment of principal remain overdue for a period of more than 90 days in respect of a term loan.
- b) The account remains out of order in respect of an overdraft/cash credit (OD/CC):
 - if the outstanding balance remains continuously in excess of the sanctioned limit/drawing power.
 - In cases where the outstanding balance in the principal operating account is less than the sanctioned limit/drawing power, but there are no credits continuously for 90 days as on the date of balance sheet or credits are not enough to cover the interest debited during the same period.
- c) In case of bills purchased & discounted, if the bill remains overdue for a period of more than 90 days.
- d) In case of Crop Loans
 - The installment of principal or interest thereon, remains overdue for two crop seasons in case of short duration crop.
 - Installment of principal or interest there on, remains overdue for one crop season in case of long duration crop.
- e) If interest charged (including monthly interest) during any quarter is not serviced fully within 90 days from the end of the quarter.
- f) Any amount to be received remains overdue for a period of more than 90 days in respect of other accounts.

Credit Risk Management Policy:

Bank has board-approved Credit Risk Management Policy besides Loan Policy. While Loan Policy covers business issues, Credit Risk Management Policy deals with risk issues.

Credit Risk Management Policy covers guidelines on:

- Credit Approval process Credit Risk Framework
- Loan pricing and concessions
- Loan Monitoring & Controls
- Credit Risk Rating Systems pricing capital allocation
- Retail credit risk management
- Portfolio Management & Exposure ceilings
- Prudential/Regulatory ceilings, such as industry wise exposure, sensitive sector exposure (capital market/ real estate exposure),
- Risk Management of off-balance sheet exposure,
- Risk Reporting Basel II implementation.

Quantitative Disclosures

b. The total gross credit risk exposures are:

(Rs. in Crores)

Category	Amount
Fund Based	262757.29
Non Fund Based	42467.81
Total	305225.10

c. The geographic distribution of exposures is:

iv) Closing balance as at the end of the year (i + ii -iii)	404.52

Table DF-4: Credit Risk Disclosures for Portfolios subject to Standardized Approach

Qualitative Disclosures

- a. For portfolios subject to the standardized approach
 - Bank has approved the following 6 domestic credit rating agencies accredited by RBI for all eligible exposures.
 - a) Credit Analysis and Research Limited;
 - b) CRISIL Limited;
 - c) India Ratings and Research Private Limited (India Ratings);
 - d) ICRA Limited;
 - e) Brickwork Ratings India Pvt. Limited (Brickwork); and
 - f) SME Rating Agency of India Ltd. (SMERA)
 - Bank has also approved the following 3 international credit rating agencies identified by RBI.
 - a) Standard & Poor's
 - b) Moody's
 - c) FITCH
 - Corporate borrowers and Public Sector Enterprises are being encouraged to solicit ratings from approved external rating agencies. The ratings available in public domain are mapped for the purpose of calculation of risk-weighted assets as per RBI guidelines on mapping.

Quantitative Disclosures

b. The exposure amounts after risk mitigation (subject to the standardized approach) in different risk buckets are as under:

(Rs. in crore)

i) Below 100% risk weight exposure outstanding	167307.61
ii) 100% risk weight exposure outstanding	82064.31
iii) More than 100% risk weight exposure outstanding	50411.60
Total	299783.51

Table DF-5: Credit Risk Mitigation: disclosures for standardized approaches

Qualitative Disclosures

- a. Bank has board approved policy on Credit Risk Mitigation (CRM) Techniques & Collateral Management, which covers guidelines for selection of collaterals, Valuation of Collaterals, Monitoring of Collaterals, risks in collaterals, eligible financial collaterals, guarantees, RBI stipulated haircuts and Collateral Management Framework for Advanced Approaches. As per the policy:
 - The main types of collaterals accepted taken by the bank are as under:
 - i. Eligible financial collaterals recognized as Credit Risk Mitigants under the Standardized Approach as per RBI guidelines on New Capital Adequacy Framework (NCAF),
 - o Cash or cash equivalent (bank deposits/ NSCs /KVP/LIC Policy, etc),
 - o Gold
 - o Securities issued by Central / State Governments
 - Debt securities rated BBB- or better/PR3/P3/F3/A3 for short term debt instruments
 - Units of Mutual Funds, where the investment is in instruments mentioned above
 - ii. Bank reduces its credit exposure to a counter party with the haircutadjusted value of eligible financial collaterals to factor risk mitigation effect of the collaterals.
 - iii. Other collaterals such as movable and immovable assets/landed properties etc.
 - iv. The guarantees include guarantees given by corporate, bank and personal guarantees. This also includes advances guaranteed by ECGC, CGTMSE and State /Central Governments, etc.

Quantitative Disclosures

b. Under the standardised approach for credit risk, the total eligible financial collateral is as follows:

(Rs..in crore)

Particulars	31.03.2015
Total Exposure covered by eligible financial collateral	25711.29

c. Under the Standardised approach for Credit Risk, following is the breakup of exposure covered by the eligible Guarantors:

(Rs. in crore)

Particulars	31.03.2015
Total Exposure covered by guarantees	8591.42

Table DF-6: Securitization: disclosure for standardized approach

a. At present, the bank's role in securitization has been as an investor in securitized instrument. Bank's outstanding in securitized instrument by way of investment as on 31.03.2015 is **NIL**.

Table DF-7: Market Risk in Trading Book

Qualitative Disclosures

- Market Risk is "the risk that value of 'on' or 'off' Balance Sheet positions will be adversely affected by movements in equity and interest rate markets, caused by exchange rates and commodity/ asset prices".
- The portfolios covered by the standardized approach for computation of market risk are as under:
 - Securities Held under Held for Trading (HFT),
 - Securities Held under Available for Sale (AFS),
 - Equity portfolio held under HFT/AFS
 - Trading position in Derivatives,
 - Derivatives entered into for Hedging Trading Books exposures,
 - Open Foreign Exchange Position & Open Gold Position.
- The rest of the assets i.e. Investments under Held to Maturity portfolio and advances are treated as Banking Book. Brief description of the Market Risk Management objectives and policies are as below:

Policies

Bank has well laid out Treasury Policy (covering Investment Portfolio, Foreign Exchange Operations & Derivative Operations), Asset Liability Management (ALM) Policy and Market

Risk Management Policy in place duly approved by the Board. The policies ensure that operations in Securities, Equity, Foreign Exchange and Derivatives are conducted in accordance with sound & acceptable business practices and are as per the extant Regulatory Guidelines, Laws Governing Transactions in Financial Instruments & Financial Markets. The policies are reviewed every year; and if required more frequently, to incorporate changes in Rules & Regulations by Regulatory Authorities / Government, Business Requirements and Economic Environment.

Liquidity Risk

Bank uses 'Cash-Flow Approach' & 'Stock Approach' for managing, monitoring & measuring liquidity risk. Liquidity Risk is tracked through maturity or cash flow mismatches. Use of maturity ladder and calculation of gaps at various 'time-buckets', is adopted as standard tool for measuring Liquidity Risk. Prudential limits on tolerance level of mismatches are in place and monitored & reported to RBI on a fortnightly basis. Under stock approach, various ratios / limits are in place .Stress tests are carried out at various levels of adversity. The Liquidity / Funds requirements under Stress Situations, sources of raising the funds & its possible impact on Profit & Loss are worked out at quarterly interval.

Short-term Dynamic Liquidity Statement is prepared and monitored on a monthly basis to assess the Liquidity Position, which takes into account the Business Growth.

Interest Rate Risk

Bank uses Traditional Gap Analysis (TGA) to assess the impact on the Net Interest Income (NII) of the bank in short run, i.e. upto end of Financial Year. Bank also uses Duration Gap Analysis (DGA) to assess long-term impact of changes in interest rate on Market Value of Equity (MVE) in terms of RBI Guidelines.

Foreign Exchange Risk

The Bank has fixed various exposure limits such as Maximum Daylight Limit, Overnight Limit, Aggregate Gap Limit (AGL), Stop Loss Limit and Deal Size Limits. Bank has also fixed VaR limit on Foreign Exchange position which is being monitored on daily basis. Derivative transactions are monitored by fixing prudential limit for stop loss and a cap for PV01 on the outstanding derivatives for market making position.

Equity Price Risk

In terms of Banks' Treasury Policy, limits are in place with respect to Trading Book size in Equity, Deal size, Holding Period & Stop Loss Limits. These limits are monitored on a daily basis.

Structure and Organisation of Market Risk Management function:

The Board of Directors approves policies covering management of Market Risk. The Board is supported by three levels:

- Supervisory Committee of ALM & Risk Management
- Asset Liability Management Committee
- General Manager (Risk Management Department)

Scope:

Bank has put in place various limits to measure, monitor & manage market risk. Day Light Limits, Overnight Limits, Deal-size Limits, Aggregate Gap Limits (AGL), Individual Gap Limits (IGL), Stop Loss Limits, Trading Book size, Issuer wise Limits, VaR limits, NOOP limit, etc. The limits are monitored on daily basis and a reporting system to the top management is in

Stress testing Framework for Liquidity & Market Risk is in place & stress tests are conducted on quarterly basis. The results are deliberated at ALCO & placed before the Board.

Hedging & mitigating risk:

Policies for hedging Banks' position are laid down in the Bank's Treasury Policy. Hedge transactions for banking books are assessed/ reviewed at periodic intervals.

Quantitative Disclosures

Bank has adopted the standardized Duration Approach as prescribed by RBI for computation of capital charge for market risk and is already fully compliant with such RBI guidelines. The capital requirement for market risk are as under:

(Rs. in Cr)

Risk Category	Capital Charge
Interest Rate Risk	886.38
Equity Position Risk	416.64
Foreign Exchange Risk (including gold)	12.15
Total capital charge for market risk under standardised duration approach	1315.17

Table DF-8: Operational Risk

Qualitative Disclosures

- Operational Risk is the risk of losses resulting from inadequate or failed internal processes, people and systems or from external events.
- Operational Risk exists at all levels and at all business lines.
- At present, operational risk is largely managed through internal controls, Operational risk Management Framework and audit system.

• .

- Bank has put in place the following measures to control / mitigate operational risk.
 - System of delegated authority covering credit and expenditure
 - Book of instructions and issuance of instructions through circulars from time to time
 - Continuous training process
 - Preventive vigilance
 - Insurance
 - Risk Based Internal Audit
 - Outsourcing policy
 - Compliance Policy

- Policy on Business Continuity
- Bank has well laid down Operational Risk Management Policy, which covers:
 - Organisational structure
 - Identification, assessment, monitoring and control of operational risk.
 - Capital Charge for operational risk
 - Reporting framework
 - Guidelines on reporting and collection of Operational Risk Loss Data
 - Policy on mapping of activities to 8 business lines
- Bank has an appropriate and independent organizational structure with oversight mechanism for management of Operational risk, which includes Operational Risk Management Committee (ORMC) of Top Executives and a separate Risk Management Department looking after the Operational Risk. Besides, there is a separate Board Level Committee i.e., Supervisory committee of the Board to oversee the functioning of Risk Management and ALM.
- ORMC deals with new product approval process, analysis of frauds, analysis of operational risk loss data, analysis of the exercise of mapping bank's activities and income into 8 business lines.
- Bank has Product Evaluation Committee in place which evaluates the new as well as modifications in products/ processes before presenting the same to ORMC.
- The bank has adopted Basic Indicator Approach for calculating capital charge for operational risk. Bank has been continuously working on all the qualitative and quantitative requirements for The Standardized Approach (TSA) and various data elements of AMA i.e. Internal Loss Data, External Loss Data, Business Environment and Internal Control Factors (BEICFs) and Scenario Analysis. Bank has already applied for TSA and is in process of implementing Integrated Risk Management Software solution.
- As per RBI directives, the bank has to maintain capital for operational risk under Basic Indicator approach (BIA) w.e.f.31.03.2008. The capital charge as per BIA on 31.03.2014 is Rs. 1356.86 crores.

Risk Profiling

Bank compiles Operational Risk Profile Template (RPT) on a half yearly basis by which it assesses the level and direction of inherent risk, internal control risk and resultant net Operational Risk based on the following:

- People Risk
- Outsourcing Risk
- Process Risk
- Technology Risk
- Reputation Risk
- Event Risk

Table DF-9: Interest rate risk in the Banking Book (IRRBB)

(a) Qualitative Disclosures

Interest rate risk may arise where changes in market interest rates might adversely affect Bank's financial position. The immediate impact of changes in interest rates is on Bank's earnings through changes in its Net Interest Income (NII). A long-term impact of changes in interest rates is on Bank's Market Value of Equity (MVE) or Net worth through changes in the economic value of its assets, liabilities and off-balance sheet positions. Bank holds assets, liabilities and off balance sheet items with different maturities or re-pricing dates which may be linked to different benchmark rates. This creates exposure to unexpected movements in interest rates.

Traditional Gap Analysis (TGA) is used to measure and monitor Interest rate risk through Rate Sensitive Gap (RSG). Impact of changes in interest on Net Interest Income (NII) is computed. Limit on RSG upto 1 Year is fixed to limit impact of interest rate changes from earning perspective. Interest rate sensitivity statement as per TGA is prepared as on the last day of each month. ALCO reviews the same on monthly basis. Impact of changes in broad categories of assets and liabilities, i.e. deposits, advances, investments and others upto the end of the financial year is worked out.

In terms of RBI guidelines, Bank also carries out Interest Rate Sensitivity as per Duration Gap Analysis (DGA) on monthly basis to capture impact of changes in interest rates on economic value of bank's assets and liabilities in banking book and thereby on Market Value of Equity (MVE). The impact is worked out assuming 200 bps parallel shifts in yield curve.

Framework:

Bank has formed Asset Liability Management Committee (ALCO), headed by Chairman & Managing Director/ Executive Director, which is responsible for evolving appropriate system and procedures for identification and analysis of liquidity/market risk and has laid down ALM policy of the bank. The ALCO is assisted by a dedicated 'ALM Desk' and an independent 'Mid-Office'. Supervisory Committee of the Board of Directors on ALM and Risk Management oversees the functioning of ALCO and also the implementation of the system & procedure for Asset Liability Management (ALM).

(b) Quantitative Disclosures

The impact of earnings and economic value of equity assuming a percentage shift in interest rates is as under:

(Rs. in crs)

	Parameter	Impact
1	Earnings at Risk (NII):estimated impact on NII with adverse change in rate of interest by 2.00% (up to 1 year)	1273
2	Market value of Equity: 200 bps shock	1792

Table DF-10: Counterparty Credit Risk

Qualitative Disclosures

The Bank deals in two groups of derivative transactions within the framework of RBI guidelines.

- i) Over the Counter Derivatives
- ii) Exchange traded Derivatives

The Bank deals in Forward Rate Agreement, Interest Rate Swaps, Cross Currency Swap and Currency Options in Over the Counter Derivatives group.

The Bank undertakes derivative transactions for proprietary trading/market making, hedging own balance sheet and for offering to customers, who use them for hedging their risks within the prevalent regulations. Proprietary trading/market making positions are taken in Rupee Interest Rate Swap, Currency Futures and Interest Rate Futures. While derivative instruments present immense opportunity for making a quantum leap in non-interest income and also for hedging market risk, it exposes the Bank to various risks. The Bank has adopted the following mechanism for managing different risks arising out of derivative transactions.

Exposures Related To Counterparty Credit Risk

Counterparty Credit Risk (CCR) is the risk of default by the counterparty towards settlement of the transaction before or at maturity. Counterparty credit risk management framework for financial market products of the Bank are governed by:

- Credit Risk Policy for credit related processes around limit set-up as well as measurement and monitoring.
- Derivative Policy- for product related framework.

Counterparty Credit Risk (CCR) Limits are approved based on guidelines outlined in the Bank's Credit Policy and requirements of the counterparties. Bank Counterparties are assessed based on an internal model that considers parameters such as credit rating, capital adequacy, and resource raising ability, asset quality, management assessment, profitability, liquidity and systemic importance. In case of non-bank counterparties, CCR limit is approved based on a detailed credit assessment process followed by the Bank as per the Credit Policy. CCR limits are set on the amount and tenor while fixing the limits to respective counterparties with distinct limits for each type of product and post approval of the credit limit, the credit exposures are monitored on a daily basis against approved limits.

All the Derivative transactions with the Counterparty are evaluated through Board approved Treasury Policy- (Derivatives) of the Bank. The Bank has classified various derivative transactions in categories based on complexity of the transactions. Counterparties are evaluated based on their financial strength, subject understanding and infrastructure vis-à-vis complexity category of the transaction type for eligibility to transact.

In addition to this, the MTM for the clients are monitored on a regular basis and circulated to the top management of the Bank. Also, the Bank monitors concentration in MTM exposures across currency pairs, ratings, products, maturities, to understand the inherent credit risk in the derivatives portfolio to enable the management to focus on key risk areas. The Bank also tries to monitor the quality of the underlying by trying to capture if the underlying exposure being hedged by the derivative is an existing exposure of the Bank. Capital for CCR exposure is assessed based on Basel Standardized Approach.

Policies for securing collateral and establishing credit reserves:

In order to mitigate CCR, the Bank has Credit Risk mitigation measures viz. collateralization, guarantees, netting, break clause, etc which form a part of the Derivative Policy and are exercised by the Bank as and when deemed necessary.

Impact of the amount of collateral the bank would have to provide given a credit rating Downgrade

The Bank is yet to enter into any Credit Support Annex (CSA) agreements with its counterparties and any such impact is currently not quantifiable.

Policies with respect to wrong-way risk exposures:

Wrong way risk arises if the exposure tends to increase when the counterparty credit quality gets worse. Wrong way risk is qualitatively judged at this point by the Bank and the Bank advises its clients in terms of the positions it should avoid so as to mitigate wrong-way risk. The Bank will evaluate quantitative measures to compute the wrong way risk when it feels there is a significant risk to the portfolio.

The Bank does not recognize bilateral netting. The derivative exposure is calculated using Current Exposure Method (CEM) and the balance out standing as on March 31, 2014 is given below.

Quantitative Disclosures

Table DF - 13	Main Features of Regulatory Capital

A. Equity Capital The main features of Equity capital are as follows:

S. No.	Particulars	Equity
1	Issuer	Union Bank Of India
2	Unique identifier	ISIN:INE692A01016
3	Governing law(s) of the instrument	Indian Laws
Regula	atory treatment	
4	Transitional Basel III rules	Common Equity Tier I
5	Post-transitional Basel III rules	Common Equity Tier I
6	Eligible at solo/group/ group & solo	Solo & Group
7	Instrument type	Common Shares
8	Amount recognised in regulatory capital	Rs. 6357.79 Million
	(as of most recent reporting date)	
9	Par value of instrument	Rs.10 per share
10	Accounting classification	Shareholder's Equity
11	Original date of issuance	Various
12	Perpetual or dated	Perpetual
13	Original maturity date	No Maturity
14	Issuer call subject to prior supervisory approval	No
15	Optional call date, contingent call dates and redemption	NA
	amount	
16	Subsequent call dates, if applicable	NA
Coupor	ns / dividends	•
17	Fixed or floating dividend/coupon	NA
18	Coupon rate and any related index	NA
19	Existence of a dividend stopper	No
20	Fully discretionary, partially discretionary or mandatory	Fully Discretionary
21	Existence of step up or other incentive to redeem	No
22	Non-cumulative or cumulative	Non-Cumulative
23	Convertible or non-convertible	NA
24	If convertible, conversion trigger(s)	NA
25	If convertible, fully or partially	NA
26	If convertible, conversion rate	NA
27	If convertible, mandatory or optional conversion	NA
28	If convertible, specify instrument type convertible into	NA
29	If convertible, specify issuer of instrument it converts into	NA
30	Write-down feature	No
31	If write-down, write-down trigger(s)	NA
32	If write-down, full or partial	NA
33	If write-down, permanent or temporary	NA
	If temporary write-down, description of write-up	
34	mechanism	NA
	Position in subordination hierarchy in liquidation (specify	Subordinated to all other
35	instrument type immediately senior to instrument)	claims.
36	Non-compliant transitioned features	No
37	If yes, specify non-compliant features	NA

B. Perpetual Non-Cumulative Preference Share Capital

During Sept 2014 quarter the Bank has allotted 54,72,563 equity shares of Rs.10/-each at conversion price of Rs.202.83 per equity share (including premium of Rs.192.83 per equity share) to Government of India by conversion of entire Perpetual Non-Cumulative Preference Shares (PNCPS) amounting to Rs.1110 millions held by the Government of India. Consequently the Government share holding has increased from 60.13% to 60.47%.

C. Perpetual Bonds:
The main features of Perpetual Bonds are follows:

	The main reatures of Perpetual bonds are follows:	
1	Issuer	Union Bank of India
2	Unique identifier (e.g. CUSIP, ISIN or Bloomberg identifier for private	INE692A09118
	placement)	
3	Governing law(s) of the instrument	Indian Laws
	Regulatory treatment	
4	Transitional Basel III rules	Perpetual Bonds
5	Post-transitional Basel III rules	Ineligible
6	Eligible at solo/group/ group & solo	Solo and Group
7	Instrument type	Perpetual Bonds
8	Amount recognised in regulatory capital (Rs. in million, as of most	3000.00
	recent reporting date)	
9	Par value of instrument	1,000,000.00
10	Accounting classification	Liability
11	Original date of issuance	10/10/2006
12	Perpetual or dated	Perpetual
13	Original maturity date	Perpetual
14	Issuer call subject to prior supervisory approval	
15	Optional call date, contingent call dates and redemption amount	Call: After 10 Years i.e.10/10/2016
		and on every interest payment date
		thereafter with RBI approval.
16	Subsequent call dates, if applicable	N.A.
	Coupons / dividends	
17	Fixed or floating dividend/coupon	Fixed
18	Coupon rate and any related index	9.45%
19	Existence of a dividend stopper	No
20	Fully discretionary, partially discretionary or mandatory	Mandatory
21	Existence of step up or other incentive to redeem	Yes
22	Noncumulative or cumulative	Non-cumulative
23	Convertible or non-convertible	Non-convertible
24	If convertible, conversion trigger(s)	N.A.
25	If convertible, fully or partially	N.A.
26	If convertible, conversion rate	N.A.
27	If convertible, mandatory or optional conversion	N.A.
28	If convertible, specify instrument type convertible into	N.A.
29	If convertible, specify issuer of instrument it converts into	N.A.
30	Write-down feature	No
31	If write-down, write-down trigger(s)	N.A.
32	If write-down, full or partial	N.A.
33	If write-down, permanent or temporary	N.A.
34	If temporary write-down, description of write-up mechanism	N.A.
35	Position in subordination hierarchy in liquidation (specify instrument	The claims of the investor in
	type immediately senior to instrument)	Perpetual Bonds shall be; a)
	,	Superior to the claims of the
		investors in instrument eligible for
		inclusion in Tier I capital, Upper
		Tier II capital and; b) Subordinate
L		to the claims of all other creditors.
36	Non-compliant transitioned features	Yes
37	If yes, specify non-compliant features	Absence of Point of Non Viability
		Features and Existence of Step up
		Option.

Table DF - 14	FULL TERMS & CONDITIONS OF REGULATORY CAPITAL INSTRUMENTS

Equities- Common Equity Tier-I and Additional Tier-I Capital Instruments:

Sr. No.	Capital Type	Instruments	Full Terms and Conditions
1	Equity	Equity	As disclosed above in main features section.

The Bank has been raising capital funds by means of issuance of Innovative Perpetual Debt Instruments (IPDI), Upper Tier II and Subordinated bonds. As these capital instruments are not fully compliant with the eligibility criteria set under Basel III Capital Regulations, these are phased out in computation of Tier 1 and Tier 2 Capital under the transitional provisions specified in RBI Master Circular on RBI Master Circular on Basel-III Capital Regulations, July 1, 2014.

The details of IPDI, Upper Tier II and Subordinated Debt (Unsecured Redeemable Nonconvertible Subordinated Bonds in the nature of Promissory Notes/Debentures), issued by the Bank and outstanding as on March 31, 2015 are given below:

Tier 1 Capital Instruments
